

ADDENDUM No. 7

DATE: January 22, 2015

TO: ALL PROSPECTIVE PROPOSERS

SUBJECT: RFP No. 00133: JOINT DEVELOPMENT AT DOUGLAS ROAD METRORAIL STATION

This addendum becomes a part of the subject Request for Proposals (RFP No. 00133)

A) Revision to the Solicitation.

Insert the word "Transit" after the words highest and best in Section 4.2, Technical Criteria, Letter A, first bullet.

B) The following questions were received regarding the subject solicitation. Each question and corresponding response is listed below.

Question 1

Are there any significant Florida Power & Light utility easements on the property that would inhibit construction on any part of the parcel(s) or require additional agreements with FPL to relocate?

Response: The Proposer, as part of its due diligence should contact Florida Power & Light for this information.

Question 2

How do Florida Power & Light's plans for the 80-100 ft High Voltage utility poles along the Metrorail Corridor Right of Way affect this project?

Response: The Proposer, as part of its due diligence should contact Florida Power & Light for this information.

Question 3

Are there any utility easements belonging to Miami-Dade Water and Sewer through the MDT parcel(s) that would inhibit construction in (i.e., I.T. Fiber Optic cabling)?

Response: Please refer to Exhibit A in the RFP.

Question 4

Is there adequate Water and Sewer Infrastructure adjacent to the property to accommodate this and other proposed residential and commercial development in the area?

Response: Per Miami-Dade Department of Regulatory and Economic Resources Division of Environmental Resources Management, there is adequate infrastructure for the anticipated development requested herein. However, the County cannot speculate regarding "other proposed residential and commercial development in the area."

Question 5

Are any of the pump stations which service this area currently at, or above, capacity?

Response: No, per Miami-Dade Department of Regulatory and Economic Resources Division of Environmental Resources Management.

Question 6

Are there any known underground storage tanks anywhere on the site that may have been left over from previous uses?

Response: No, per Miami-Dade Department of Regulatory and Economic Resources Division of Environmental Resources Management.

Question 7

Will the County please consider a 60-90 day extension to allow for possible proposers to further refine the right project for the conditions, in light of the detailed development program and proforma projections requested under the RFP?

Response: See Addendum 6.

Question 8

Considering the complexity of the project development requirements and the possibility of certain utility easements that may impact planning, it seems that there are a number of concerns that will impact the site planning, programing and architectural submittal requirements. Further, the contemplated lease is for a long term of 90 years. Will the County consider a 90 day extension to the submittal deadline in order to encourage enhanced competition and allow for a more informed approach to the project proposal?

Response: See Addendum 6.

Question 9

Are there any state, local, federal or other funding allocations or policy decrees, by any body, that would require an expedited timeline to receive proposal responses or arrive at a decision of award? If so, please provide supporting documentation related to those decisions.

Response: The County is not utilizing any of its expedited programs for this solicitation.

Question 10

Who is acting as the project representative for the Transit Department during the procurement phase?

Response: Mr. Froilan Baez is the representative within Miami-Dade Transit. However, Proposers are reminded that the point of contact during the procurement process is the Procurement Contracting Officer.

Question 11

Who will be the project management representative for the County after the award?

Response: To be determined.

Question 12

What is the Department's position regarding the inclusion of adjacent parcels that have non-conforming zoning designations?

Response: The County has no opinion on this matter.

Question 13, COVENANT RUNNING WITH THE LAND

Will the Department expand on the appropriate regulatory body responsible for site approval decisions? Chapter 33C of the code sets forth a process, but the Covenants included in the RFP seem to indicate the City of Miami shall have some oversight and approval authority.

Response: The County has ultimate authority through Chapter 33C. However, the plans have to be circulated and reviewed by the City of Miami for their comments.

Question 14

Considering the requirements to comply (COVENANT RUNNING WITH THE LAND) with the City of Miami Planning and Zoning Administrator Criteria, please clarify the parking requirements for the site. Is the developer required to comply with Miami 21 or do the Rapid Transit Zone criteria prevail? Please provide any documentation you have regarding any agreements that have been signed with the City of Miami.

Response: Chapter 33C prevails.

Question 15

Considering the requirements to comply (COVENANT RUNNING WITH THE LAND) with the City of Miami Planning and Zoning Administrator Criteria, please clarify the height and density requirements for the site. Is the developer required to comply with Miami 21 or do the Rapid Transit Zone criteria prevail? Please provide any documentation you have regarding any agreements that have been signed with the City of Miami on this matter. If no agreement has been signed, will the County consider any changes required by the City of Miami as compensation events requiring a reduction in payments?

Response: Chapter 33C prevails.

Question 16

Will the County consider alternative locations (within the envelope of the proposed development) for the surface parking that is required southwest of the Douglas Road Station? If so, will the County consider alternative uses for that parking lot?

Response: Proposers are free to propose any proposal that best meets or exceeds the objectives found in Section 2.2 of the RFP, and are not precluded from any specific design.

Question 17

Are there any restrictions on conducting construction (noise, lighting, etc.) during the hours of 12:30 AM and 5 AM?

Response: In Exhibit I of the RFP, the work hours permitted are Monday through Friday 7:00 AM to 5:00 PM; if there is to be any deviation from this it must be requested of Miami-Dade Transit prior to proceeding.

Question 18

Will the County kindly provide a copy of any appraisals that have been conducted for any of the development parcels or any adjacent county owned parcels at any point in the past 10 years?

Response: This information is not readily available at this time.

Question 19

SUBMITTAL REQUIREMENT 25

Will the County clarify whether it understands that certain information about prior equity sources may be trade secrets? If so, will County kindly state clearly that the identity of prior equity providers is not explicitly required and the proposer may provide general information without risk of a material deviation from the submittal requirements?

Response: The information requested is found in the Proposal Submission Package. Refer to Section 1.3 of the RFP. It is up to the proposer to determine how to best respond regarding to Chapter 119, Florida Statutes, popularly known as the

"Public Record Law."

Question 20

Will the County kindly clarify all entities to whom impact fees are due for this project?

Response: Miami-Dade County and/or the City of Miami.

Question 21

Please provide a breakdown of all maintenance costs for MDT on the proposed development site, the parking lot to the Southwest, the station, the bus circulators, and the undeveloped ROW for the current fiscal year and each of the prior 3 fiscal years. Please provide a schedule of maintenance personnel and any contracted services.

Response: Miami-Dade Transit anticipates the Proposer will take over the maintenance of all the elevators and escalators at the site:

Elevators:

Station - 1

Ped Overpass – 2

Escalators:

Station – 2

Annual Costs: \$47,104.83

Extra Work(10%): \$4,710

EE Total Annual: \$51,814.83

The Proposer may also be responsible for landscape maintenance and any enhancements:

Landscape estimate per 2 acres:

Estimated general landscaping maintenance services = \$840.00 per month (\$10,080 annually)

Breakdown:

- Cost per cycle = \$400
- Cost of 24 contracted cycles = \$9,600 (per year)
- Cost per litter pick up = \$40
- Cost of 12 contracted litter pick cycles = \$480 (per year)

Landscape Annual: **\$10,080 per two acres**

Question 22

If the County currently has any operating or service agreements for maintenance or security on the site, please provide those agreements. Is the developer being asked to replace those services or provide services in addition to those already under contract?

Response:

Elevator Escalator (EE) and Security contracts for units at this location are listed below. Please see links next to each contract for information.

Schindler: SS1245-3/27-1:

<https://www.miamidade.gov/DPMww/SearchAwardSheetAttachments.aspx?ContractId=SS1245-3/27-1>

Landscaping:
9743-0/23
<https://www.miamidade.gov/DPMww/SearchAwardSheetAttachments.aspx?ContractId=9743-0/23>

Question 23

Please provide detailed ridership figures for the Douglas Road station for the current fiscal year and each of the prior five fiscal years

Response: This can be found on Miami-Dade County's web site. See link below.
<http://www.miamidade.gov/transit/ridership-technical-reports.asp>

Question 24

Please provide copies of ridership estimates for the metro rail system that have been conducted in the previous ten years.

Response: Same as above.

Question 25

Please provide a written document outlining the expected "standard of care" for maintenance on the premises if the developer proposes to participate after contract award.

Response: The following data is for informational purposes only.

See basic Elevator Escalator (EE) contract measure and performance goals below:

MEASUREMENT OF PERFORMANCE

RELIABILITY

- A. Each individual Elevator/Escalator shall be capable of reliable operation, meeting the following modes of operation and loading criteria:
 - 1. 7,600 operating hours per year.
 - 2. 90% of full load capacity for peak periods of one (1) hour duration, twice daily.
 - 3. 50% of full load capacity for peak periods of one (1) hour duration, twice daily.
 - 4. Availability of not less than 98% for each escalator and 99% for each elevator.
- B. Availability: (A) is defined as the period of normal operational time the elevator is available for use.

$$A = \frac{\text{MTBF (hours)}}{\text{MTBF (hours)} + \text{MTTR (hours)}}$$

1. Mean Time Between Failure (MTBF) is defined as:

$$\text{MTBF} = \frac{T = \text{Actual Operating Time (hours)}}{F = \text{Number of failures in actual operating time}}$$

2. Mean Time to Repair (MTTR) is defined as the average time required to restore escalator to service after failure occurs.
3. Availability shall be determined exclusive of shutdowns due to vandalism, overloading, activation of safety devices by external cause and routine maintenance shutdown. Shutdowns for major repair shall be included in availability calculations.

Note #1: All maintenance of units at MDT facilities requiring shutdown longer than fifteen (15) minutes shall be performed during non-peak hours.

Peak Hours: 6:30 AM - 9:30 AM
4:00 PM --7:00 PM

Note #2: MDT Escalators are not covered by overtime call back as noted.
Elevators shall include overtime callbacks during the hours of 6:00 AM thru 12:00 midnight seven (7) days per week.

Landscape:

Neat, clean well-maintained
24 landscape cut cycles per year
12 additional litter pickups per year

Question 26

How will the County propose to allocate risks associated with capital losses (e.g., vandalism) on non-leased portions of the site if the developer assumes responsibility for certain maintenance activities?

Response: The County does not anticipate the developer maintaining areas outside of the demised premises, except for, refer to Question 23. In these cases the developer will maintain and or replace the vandalized property at the County's expense. Either by the County performing the repair function or by the Developer submitting a claim for payment after said repair is completed.

Notwithstanding the County's responsibility as referenced in this response, the County reserves the right to include language in the agreement requiring prior County approval before work commences for such work or repairs.

Question 27

Please clarify the County's position, under the FTA guidelines, regarding the maximum allowed distance between the required parking and the Douglas station.

Response: The closest parking has to be reserved for MDT patrons and should always be within the demised premises.

Question 28

Will the County please provide its official interpretation of the term "highest and best transit use" as it is used in the FTA guidelines?

Response: Highest and Best Transit Use is that combination of residential, commercial, retail, public, and/or parking space and amenities to be included in the joint development, which is calculated to produce the greatest level of social, economic, and financial benefit to the transit system and the community that it serves.

Question 29

Why has the County opted to utilize the term "highest and best use" in the RFP (Section 4.2) instead of the FTA preferred term, "highest and best transit use?"

Response: See A of this addendum above.

Question 30

Has the County requested from the federal government any amendments of any grants in relation to this project? Please provide details.

Response: No

Question 31

Has the County begun the process or made any preliminary inquiries related to FTA grants to support this Joint Development under 49 U.S.C 5307, <sup>2 5309 (a) (7), and 5309 (f)?

Response: No

Question 32

Will the County kindly identify the location of the parking spaces it is including that must be replaced? Please provide a map designating said counts.

Response: In the RFP, the County requested a certain number of parking spaces needed for MDT's patrons, the design and location will be up to the Proposer.

Question 33

Will the County kindly provide information on any security incidents or crimes that have been reported at or around the station in previous 5 years?

Response: See Attachment 1; List of incidents as compiled by security contractor at Douglas Road Metrorail Station. For crime statistics, please contact the City of Miami, Police department.

Question 34

Are there any parties prohibited from participating in the submittal response?

Response: The solicitation does not include any such provision prohibiting the submittal of a proposal.

Question 35

Is the design engineer who is working for FDOT on the alignment of U.S. 1 prohibited from participating on a development team? Allowing that participation would seemingly provide an unfair advantage to a proposer team in discussion site

access with FDOT.

Response: The Solicitation does not prohibit the use of any firm on a development team.

Question 36

The County has recently determined in another lease (See: Miami Heat) that a guaranteed annual rent is the most advantageous leasing scenario. Has the County Commission provided any formal guidance to MDT that would lead you to request percentage rent? Can you provide some insight on this policy decision?

Response: Solicitations are designed for competition and the anticipated best deal for the County on a project-by-project basis.

Question 37

Section 2.6 of the RFP mentions off-site improvements that may be required. Will the County kindly provide an explanation of any off-site improvements that may be necessary? Please kindly provide the same for any off-site improvements that may be required by the City of Miami or the City of Coral Gables in addition to the County.

Response: Any off-site improvements that may be necessary will be determined by the City of Miami and the County, depending on the site plan proposed.

Question 38

Has the County been made aware of any toxic contaminants in the soil on the site or on any site within a quarter mile of the project perimeter? Please provide details.

Response: Per the Phase I Environmental Site Assessment, dated May 16, 2000, there has not been a recorded or observed release of petroleum or hazardous substances to the environment on the subject site that would endanger the public health, the environment, or would likely require remedial action by the State of Florida Department of Environmental Protection (FDEP).

Question 39

Will the County consider meetings with the proposers during the proposal process to discuss and potentially take exceptions to certain terms in the proposed lease? Depending on the circumstances, certain terms in the lease may affect the viability of the project.

Response: Proposers were given the opportunity to ask questions at the pre-proposal conference and in writing via Bidsync. In addition, please refer to Section 1.3 of the RFP.

Question 40

Has the County completed (or been provided with) any market analysis, demand analysis, or demographic study related to the proposed site?

Response: Please refer to Question 18.

Question 41

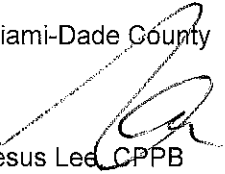

Will the County consider utilizing local preference?

Response: No.

All other information remains the same.

JOINT DEVELOPMENT AT DOUGLAS ROAD METRORAIL STATION
